(Books may not be sold or used for commercial purposes.)
- Order books by the case/40 books per case.
- Developed by the NH Division of Public Health Services with clinical support provided by the NH Chapter of the American Academy of Pediatrics.

"Beautiful, effective and fun! Happy, Healthy, Lead-Free Me! is an innovative and creative way of teaching families about the dangers of lead and the importance of lead level testing, while allowing children to benefit from the amazing developmental gains associated with reading. Both pediatricians handing out the book and the families who are receiving it -- all love it!" — Erik M. Shessler, MD, President, NH Chapter of AAP, Chair of General Pediatrics and Associate Medical Director, Dartmouth Health, Manchester, NH.

We are proud to share what others are saying:

“A small masterpiece! Engaging and user-friendly, from the attractive illustrations and simple rhymes to the informative but easy-to-understand prevention guidance included for the adult reader.” — *Katie Lajoie, RN, Former Public Health Nurse*

“The rhyming board book format is familiar to parents and children, making it a comfortable fit with the routine of reading stories. The age-appropriate presentation, bright colors, diversity of the characters, and availability in additional languages makes this book a winner!” — *Eleanor L. Maguire, MSN, APRN, Pediatric Nurse Practitioner*

Books available to download in additional languages:

English, Chuukese, Dari, Nepali, Portuguese, Spanish, Somali, and Swahili.
